LEXACOM®

Lexacom has been supporting healthcare professionals across the NHS for more than 25 years.

We have built our experience into our latest platform, offering powerful support to every member of the primary care team.

-  Easily dictate all types of documents
-  Cloud-based speech recognition with best in class accuracy
-  Access to powerful workflows within one application
-  Optional sophisticated highly configurable AI features
-  Comprehension Engine® offers optional modes to suit your work
-  Tailored and specialty specific workflows
-  Data security onboarding packs for simplified compliance
-  A range of flexible pricing and licensing models
-  UK MDR Class I device

Patient Shield®
protects patient data.
All personal identifiable
information is redacted
before any data is shared
with AI.

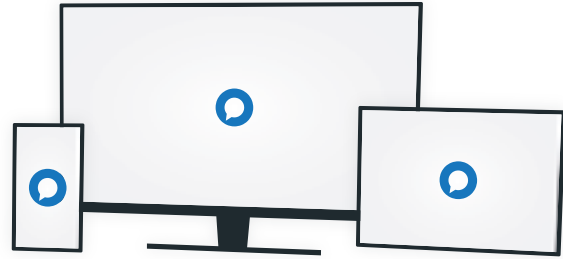

Discover how Lexacom supports your whole team.

Call *01295 236910*, email *sales@lexacom.co.uk*, visit *lexacom.co.uk*.

With you in practice, at home,
on the phone, and on the go.

Access the tools you need,
when you need them, all from
one powerful platform built
to stringent NHS standards.

Save time, streamline workflows, and reduce admin burdens.

Simple, secure, scalable

- UK based servers and NHS compliant security
- Protect patient data with Patient Shield® PID redaction
- Real-time speech-to-text in any application
- Mobile workflows for home and nursing home visits

AI when you want it

- Summarise patient consultations
- Instantly draft letters and tasks
- Smart, flexible, customisable workflows
- Grammar and punctuation correction

Endless possibilities.
One solution.

Be the first to hear
all of our news:

LEXACOM[®]

Quick and simple procurement.

Lexacom is an approved supplier on a number of government and NHS framework agreements.

25 Helping clinicians
for over 25 years

*"Indispensable.
I highly recommend
to other clinicians.
I save 30-45 minutes
each day on admin."*
