Save time throughout your day.

Download on the App Store

GET IT ON Google Play

Draft documents, summarise meetings, and manage workflows - all in one place.

Lexacom brings powerful tools together in one secure platform to reduce admin throughout the working day, so you can spend more time on billable work.

No more typing
Dictate letters, file notes, and emails.

Work anywhere
Record on the go, ready when you return.

Smarter meetings
Instant summaries and actions with AI.

Save time every day with intelligent workflows, AI scribing, and specialist speech recognition.

Get the Lexacom app from the App Store and Google Play and start your free trial.

Smarter documentation.

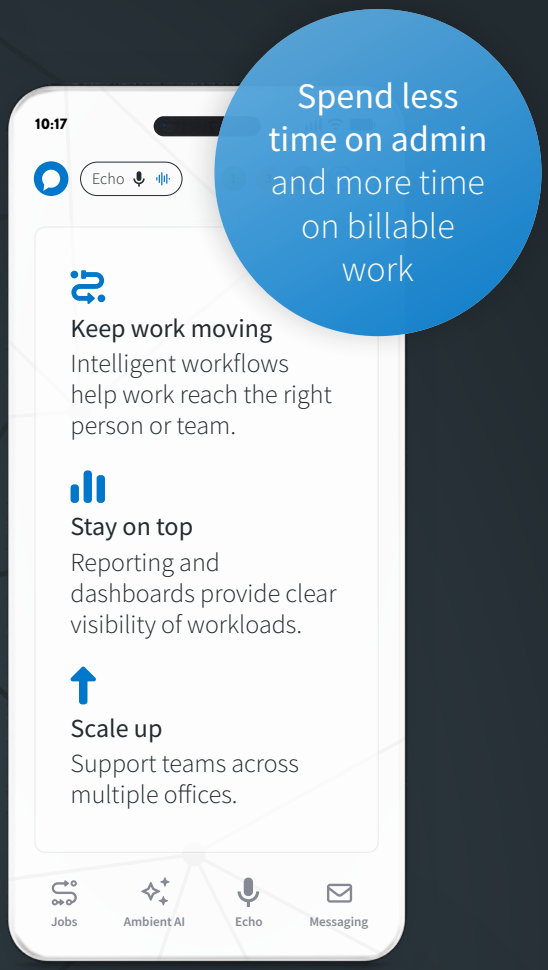

Specialist speech recognition, intelligent workflows, and AI scribing for legal professionals.

Our secure platform supports every stage of document creation and development, helping legal professionals create accurate documentation faster, and manage work efficiently.

Whether you are drafting documents, recording file notes, summarising meetings, or managing work across your team, Lexacom provides flexible tools designed to fit around the way you work.

Our intuitive workflows are scalable for firms of all sizes, connecting teams across multiple offices, and the mobile app allows you to record and manage work wherever you are.

Software updates and access to our online knowledge base and UK based technical helpdesk are included in your subscription.

Designed for professionals

With specialist speech recognition trained on legal terminology, Lexacom helps lawyers and support teams create documents accurately and efficiently.

From individual practitioners to large, multi-site firms, Lexacom brings dictation, AI-powered documentation, and workflow management together in one platform.

Our flexible system works around your existing processes, helping your team manage document production with ease.

Secure, reliable, supported

Lexacom takes the security of your information seriously. Our UK hosted platform is backed by ISO 27001 certification, Cyber Essentials Plus, and GDPR compliance.

With regular software updates, an online knowledge base, and a UK based technical helpdesk, you can rely on Lexacom to support your team day to day.
